House Cell groups in the community.

During the day time I will be traveling and ministering in the city and village people along with locals.

As it was in the days of Book of Acts we do the gathering in the homes and get shared the good news. Later we filled with the Holy Ghost and praise the LORD.

Reaching every community is always through the house group gathering. We can pray and for individuals and leading the new people in to Christ. Please pray for our team.

Social and Religious climate of this nations is not favor for the Gospel. We have been reaching homes after home with ordinary people.
